

“LIKE MUSIC & ART, LOVE OF NATURE IS A COMMON LANGUAGE  
THAT CAN TRANSCEND POLITICAL OR SOCIAL BOUNDRIES”

-JIMMY CARTER

This stunning book is a continuation of the extremely successful Images From the Land photo-choreographed concerts conducted in March 2008. Like the concert, this book, with images by Patrick Elsass, honors the Shelby County Agricultural community and the partnership between agriculture & art. The IMAGES FROM THE LAND book is a way to ensure future generations benefit from the opportunity to serve both the agriculture and art communities.
